Rutaxa have been utilising the services of Imran Haq of Best Auditing & Accounting for over 10 years.

He was involved in its original inception and provided sound guidance on initially structuring the organisation. He has subsequently been a key player throughout the life of the firm in helping support the growth of the business to its current position with timely and multi faceted advice. The services he has provided to Rutaxa include:

- Preparation of financial statements
- VAT related advice and compliance
- Cash flow management
- Preparation and submission of Income and Corporation Tax returns.

His approach has always been very professional and hands-on and his advice very precise and up to date. This has helped us navigate through the complex structures of the system.

We would have no hesitation in recommending his services to any firm.

Asim Chaudhri
Director
